
The laws for sling shots.

Posted by alice123 - 2008/08/20 03:10

If I buy a sling shot from this company www.lducompany.com will it be ok to make it into the states? It would be coming from China. I have a friend in Australia who wants me to order one for him because he does not have paypal but I am worried that the slingshot will not make it through Australian customs. This LDU company says that they guarantee delivery to Australia for slingshots but I would like to learn some things so here I am asking. Here is the address to the guaranteed sling shot delivered to Australia for my friend <http://www.liangdianup.com/inventory/271201AUS.htm> but there is no talk about slingshots shipping to the USA if they are guaranteed or not for delivery.

Hey I am not sure but I doubt that there are any laws for a slingshot unless you have it loaded with something lethal come on now who you kidding.. Why not ask the company if they guarantee to Austrailia they will tell you if they guarantee delivery in the U.S!!!!!!
